

Hi Gang;

Well it looks like little Harry is off again.

Tomorrow I leave for school again. I don't know as yet what school it will be. When I took my aptitude exams they told me that I was qualified for everything they had to offer. I chose radio first and armorer second. Aerial gunnery is included in both ~~courses~~ courses.

Radio is a 24 week course and after you finish that you take five weeks of gunnery and get a staff sergeant's rating, or a flight officer's warrant which is the same as a third lieutenant. You go through the whole course as a private though. I ~~now~~ hope I go to gunnery first, because you get a sergeant's rating when you finish there and I would like to go through radio as a sergeant. They don't send many to gunnery first though.

I received a letter from Ed yesterday.

He didn't say where he was. He did say that he was on a couple of raids but they weren't very spectacular. One of them did warrant the taking of his name by the U.P. correspondent where he is and a promise that it would appear in the home town newspaper kept on the lookout for it.

There isn't much to write now. I still have quite a bit of packing to do. I am sending out some stuff before I leave here. By the way did you ever receive that watch. I will write as soon as I get to my next post. In the meantime write to me it will be forwarded. Love
Harry
